SKILLS

- (Proficient) Node.js | Express.js | JavaScript | REST APIs | Git | Swagger | MySQL
- (Familiar) Python | Django | React.js | Tailwind CSS | TypeScript | Next.js | MongoDB | PostgreSQL | Docker | AWS
- Teamwork | Communication | Problem-solving | Attention to detail | Positive | Time management.

TECHNICAL PROJECTS

Game Store

- A platform where users can view games-related blogs and buy online.
- Backend: Django, Frontend: Html, CSS and JS, DB: PostgreSQL.

Spam Mail Detection

- In a project where we used Machine Learning, we implemented the Naïve Bayes Algorithm to check the data which is trained to a pre-model for detecting spam mails.
- Backend: Flask, Frontend: Html, CSS, Data: Kaggle.

Portfolio

- Built a personal portfolio site with GitHub pages and Cloudflare DNS.
- Static Landing Page using HTML, CSS, and JS.

Organic

- An e-commerce platform for users who can buy products online which has different organic categories.
- Backend: NodeJS, Frontend: ReactJS, DB: MySQL.

Inventory Management System

- An inventory management system for tracking the goods and inventory in the system.
- Backend: NodeJS/ExpressJS, Frontend: ReactJS, DB: PostgreSQL.

Travel

- Created and designed a travel website featuring destination guides, booking options, and travel tips for users.
- Backend: NodeJS/ExpressJS, Frontend: ReactJS, DB: MySQL.

PROFESSIONAL EXPERIENCE

Backend Developer Intern | Remote

Aug 2023 – Jan 2024

Tuyu Lotus

- Manage and optimized database operations and data flow.
- Collaborated closely with front-end developers to ensure seamless integration.
- Worked alongside senior developers to implement backend functionalities in the project.
- Create RESTful APIs integration to enable seamless communication between front-end and back-end systems.
- Conducted code reviews and performed debugging to identify and resolve issues in the backend codebase
- Gained experience with version control systems for collaborative development using Git, GitHub.
- Gained experience of Project management tool like Jira, Trello and Basic on Docker, CI/CD, S3.
- Participated in code reviews and provided constructive feedback to peers to maintain code quality and coding standards.

Backend Developer Internship | Onsite

May 2023 – Aug 2023

Kali Infotech

- Created and maintained APIs.
- Collaborated with frontend developers.
- Managed databases like Mysql and PostGreSql.
- Implemented Solutions using Node.js and Express.js.
- Gained experience with Git for version control and github for code collaboration.
- Participated in code reviews and Agile sprints.

EDUCATION

Tribhuvan University

2018-24

Bachelor of Computer Application (BCA)

Samriddhi College, Bhaktapur, Nepal

CERTIFICATES

AWS Academy Graduate - AWS Academy Cloud Foundations
